Dear Parents

The program provides a range of experiences in the following areas:

- drawing
- painting
- collage
- construction
- printing
- threads and textiles
- modelling

The program provides an opportunity for creative expression, control of a range of media and development of skills.

Within Years Prep-2, the main focus is on the Creating and Making of Art. Within Years 3-6, the additional focus of Exploring and Responding to Art is included.

The results of the art program may be seen in displays within the Art room, throughout the school, and in our Gallery in the Administration Area.

Your child requires a **NAMED SMOCK**, which covers them adequately, eg shirt or t-shirt.

Visual Art sessions are 50 minutes per week.

**Clare Meehan & Jaliya Rudd**
